Key risks

The value of an investment in the portfolios and any income from them can go down as well as up and as with any investment you may not receive back the amount originally invested.

- ◆ **Concentration Risk:** The Fund may be concentrated in a limited number of securities, economic sectors and/or countries. As a result, it may be more volatile and have a greater risk of loss than more broadly diversified funds.
- ◆ **Counterparty Risk:** The possibility that the counterparty to a transaction may be unwilling or unable to meet its obligations.
- ◆ **Credit Risk:** A bond or money market security could lose value if the issuer's financial health deteriorates.
- ◆ **Default Risk:** The issuers of certain bonds could become unwilling or unable to make payments on their bonds.
- ◆ **Derivatives Risk:** Derivatives can behave unexpectedly. The pricing and volatility of many derivatives may diverge from strictly reflecting the pricing or volatility of their underlying reference(s), instrument or asset.
- ◆ **Emerging Markets Risk:** Emerging markets are less established, and often more volatile, than developed markets and involve higher risks, particularly market, liquidity and currency risks.
- ◆ **Exchange Rate Risk:** Changes in currency exchange rates could reduce or increase investment gains or investment losses, in some cases significantly.
- ◆ **Index Tracking Risk:** To the extent that the Fund seeks to replicate index performance by holding individual securities, there is no guarantee that its composition or performance will exactly match that of the target index at any given time ("tracking error").
- ◆ **Interest Rate Risk:** When interest rates rise, bond values generally fall. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality.
- ◆ **Investment Fund Risk:** Investing in other funds involves certain risks an investor would not face if investing in markets directly. Governance of underlying assets can be the responsibility of third-party managers.
- ◆ **Investment Leverage Risk:** Investment Leverage occurs when the economic exposure is greater than the amount invested, such as when derivatives are used. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.
- ◆ **Liquidity Risk:** Liquidity Risk is the risk that a Fund may encounter difficulties meeting its obligations in respect of financial liabilities that are settled by delivering cash or other financial assets, thereby compromising existing or remaining investors.
- ◆ **Operational Risk:** Operational risks may subject the Fund to errors affecting transactions, valuation, accounting, and financial reporting, among other things.
- ◆ **Real Estate Investments Risk:** Real estate and related investments can be negatively impacted by any factor that makes an area or individual property less valuable.

Further information on the potential risks can be found in the Key Investor Information Document (KIID) and/or the Prospectus of Offering Memorandum.

Important information

For Professional Clients only and should not be distributed to or relied upon by Retail Clients.

The material contained herein is for information only and does not constitute legal, tax or investment advice or a recommendation to any reader of this material to buy or sell investments. You must not, therefore, rely on the content of this document when making any investment decisions. This document is not intended for distribution to or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation. This document is not and should not be construed as an offer to sell or the solicitation of an offer to purchase or subscribe to any investment.

Any views expressed were held at the time of preparation and are subject to change without notice. While any forecast, projection or target where provided is indicative only and not guaranteed in any way. HSBC Global Asset Management (UK) Limited accepts no liability for any failure to meet such forecast, projection or target.

HSBC ETFs are sub-funds of HSBC ETFs plc ("the Company"), an investment company with variable capital and segregated liability between sub-funds, incorporated in Ireland as a public limited company, and is authorised by the Central Bank of Ireland. The company is constituted as an umbrella fund, with segregated liability between sub-funds. Shares purchased on the secondary market cannot usually be sold directly back to the Company. Investors must buy and sell shares on the secondary market with the assistance of an intermediary (e.g. a stockbroker) and may incur fees for doing so. In addition, investors may pay more than the current Net Asset Value per share when buying shares and may receive less than the current Net Asset Value per Share when selling them. UK based investors in HSBC ETFs plc are advised that they may not be afforded some of the protections conveyed by the Financial Services and Markets Act (2000), ("the Act"). The Company is recognised in the United Kingdom by the Financial Conduct Authority under section 264 of the Act. The shares in HSBC ETFs plc have not been and will not be offered for sale or sold in the United States of America, its territories or possessions and all areas subject to its jurisdiction, or to United States Persons. Affiliated companies of HSBC Global Asset Management (UK) Limited may make markets in HSBC ETFs plc. All applications are made on the basis of the current HSBC ETFs plc Prospectus, relevant Key Investor Information Document ("KIID"), Supplementary Information Document (SID) and Fund supplement, and most recent annual and semi-annual reports, which can be obtained upon request free of charge from HSBC Global Asset Management (UK) Limited, 8 Canada Square, Canary Wharf, London, E14 5HQ, UK, or from a stockbroker or financial adviser. The indicative intra-day net asset value of the sub-funds is available on at least one major market data vendor terminal such as Bloomberg, as well as on a wide range of websites that display stock market data, including www.reuters.com. Investors and potential investors should read and note the risk warnings in the prospectus, relevant KIID and Fund supplement (where available) and additionally, in the case of retail clients, the information contained in the supporting SID.

The EURO STOXX 50 is the intellectual property (including registered trademarks) of Stoxx Limited, Zurich, Switzerland and/or Dow Jones & Company, Inc., a Delaware corporation, New York, USA, (the "Licensors"), which is used under license. Bloomberg does not guarantee the timeliness, accurateness, or completeness of any data or information relating to the HSBC Bloomberg USD Sustainable Corporate Bond UCITS ETF and the HSBC Bloomberg EUR Sustainable Corporate Bond UCITS ETF.

The value of investments and any income from them can go down as well as up and investors may not get back the amount originally invested. Where overseas investments are held the rate of currency exchange may also cause the value of such investments to fluctuate. Investments in emerging markets are by their nature higher risk and potentially more volatile than those inherent in some established markets. Stock market investments should be viewed as a medium to long term investment and should be held for at least five years. Any performance information shown refers to the past and should not be seen as an indication of future returns.

To help improve our service and in the interests of security we may record and/or monitor your communication with us. HSBC Global Asset Management (UK) Limited provides information to Institutions, Professional Advisers and their clients on the investment products and services of the HSBC Group.

Approved for issue in the UK by HSBC Global Asset Management (UK) Limited, who are authorised and regulated by the Financial Conduct Authority. HSBC Asset Management is the brand name for the asset management business of HSBC Group, which includes the investment activities provided through our local regulated entity, HSBC Global Asset Management (UK) Limited.
